What I Do

I have more than 01 years experience building software for clients all over the world. Below is a quick overview of my main technical skill sets and technologies i use. Want to find out more about my experience? Check out my online resume and project portfolio

Vanilla JavaScript

Understanding Vanilla JS enhances core programming skills essential for building efficient, scalable web applications in MERN.

React

Using React in MERN, I build fast, responsive web apps with smooth user experiences and efficient data handling.

Node.js

Node.js enables server-side JavaScript, allowing me to build scalable, fast, full-stack web applications

MongoDB

In MERN development, MongoDB provides a scalable, NoSQL database solution for managing complex data structures
